A breathtaking near-future thriller. From the New York Times bestselling author whose books have sold more than a million copies.

Nick Hall has revolutionary electronics implanted in his brain that allow him to read minds--including thoughts, memories, and even intent. He can know the passwords, future strategies, and innermost secrets of anyone he chooses, making him the most formidable man alive. But his status as the only mind reader in the world is about to change . . .

Soon Hall is fighting for his life as he races to stop an unimaginably despicable terror plot. But his problems are only beginning. Because when a member of his inner circle betrays him, and the secret to mind reading leaks out, he is forced to wage war against a merciless mind reader of nearly unequalled brilliance. One who will stop at nothing to kill Hall, his colleagues, and the woman he loves. And one who is intent on ushering in a dramatic transformation of the human species--even at the cost of billions of lives.

Based on actual research on computer-assisted mind reading, MindWar is a roller-coaster ride of a thriller. One that raises a number of intriguing possibilities about a future that is just around the corner.
