Coming from an affluent family, Catullus had the privilege of receiving an excellent education. He moved to Rome, where he joined a group of literary circles, including the influential "Neoteric" poets. These circles shaped his poetic style and influenced the themes he explored in his works.

The Poetry of Catullus

Catullus' works are considered a treasure trove of Ancient Roman poetry. His collection of 116 poems, often referred to as the "Carmina Catulli," covers a wide range of themes. The poems are immensely personal, showcasing his intense emotions, vivid imagery, and an unmatched ability to craft both tender verses and scathing invectives.

Love, particularly his tumultuous relationship with a married woman named Clodia, serves as a central theme in many of Catullus' works. His poems explore every facet of love – from the giddy ecstasy of new romance to the agony of heartbreak. Catullus' candid and sometimes explicit expressions of desire and longing challenged societal norms, pushing the boundaries of accepted poetic conventions.

Aside from love, Catullus delved into political satire, elegiac poetry, and even light-hearted verses. His versatility allowed him to explore various styles and subjects, offering readers a comprehensive view of his artistic prowess.

Despite the passage of centuries, Catullus' impact on the world of poetry remains undeniable. His works continue to inspire and influence countless poets and artists across the globe. His raw emotions and unfiltered expressions resonate with readers from all walks of life, transcending time and cultural boundaries.

Catullus' influence can be seen in subsequent poetic movements, including the Petrarchan tradition, Romanticism, and modern experimental poetry. His innovative use of language, metric structures, and exploration of personal experiences set a precedent for generations of poets.

Additionally, Catullus' influence extends into popular culture. His works have been referenced in literature, music, and even film. One notable example is the 1993 film "Maurice," directed by James Ivory, which features an adaptation of Catullus' poem "Odi et Amo" (I Hate and I Love).

The Books of Catullus is a new translation of the Roman poet Catullus which reinvents and reimagines his poetry for the contemporary age. It is the first version to divide Catullus's complete works into the three 'books' believed by many scholars to be how the text was originally

received in the Late Republic (c.60 B.C.). The length of each 'book,' or grouping correlates to the usual length of a single piece of papyrus from that period. These 'books' are gatherings of poems in different metres, and concentrate on various themes, including love, sex, friendship and marriage with some poems written in elegiac couplets. Smith's bold new translation concentrates on the variety of tone and range in Catullus's voice, often lost in most versions to a homogenised, singular translator's voice. These versions are translations rendered by a poet rather than a scholar, creating a Catullus for now and demonstrating why Catullus is an important and necessary writer for all poets to reinvent, reimagine, and re-vision. In this way *The Books of Catullus* is a new book of poetry, true to itself and to its own time.
