Hey guys!

I am Harataoru who is a CG animator at the scene of Japanese CG ANIME .

This time, the doujinshi ""3DCG 2D style effect reader book"" which I released on Japanese comic market C 87 and became indispensable in the Japanese animation CG industry finally became E-book in the long-awaited ""English version""!

Recent topic Japanese 2D-like CG animation.

It is a book that described in detail about the 2D style effect that everyone tends to be weak.

□□This book is recommended for those who□□

- Users such as Autodesk 3dsmax / Maya / Blender

(Although this document is written assuming 3dsmax, we are receiving reports from users of other software that it can be applied in similar way of

making it.)

- CG animator specializing 2D-tone animation expression and rookie.
- CG artist who handles game movies.
- Students, individual writers who intend to work in 2D animation.
- Users who do CG but can not draw 2D effects.

And so on

❑ 1: There is no plan to distribute 3dsmax / AfterEffects data used in this book.

□! 2: If the first edition of this English translation version gets popular, I will consider translating ver 2.0 / ver 3.0 as well.

It is undecided when to complete, but the word of support from you guys will be the driving force.

□ 3: I am translating this book to a third party. Because I can not speak English well, I think that I can not reply soon even if you guys have a question.

I think that I will use the translation tool even if I reply, even if it turns into

funny sentences please forgive me.

Best regards.
